- Pfizer and Moderna Reports

The overwhelming size and complexity of these documents stimulated the formation of the DailyClout Pfizer/BioNTech document analysis volunteers, a group of medical professionals, scientists, data analysts, statisticians, lawyers, and more, who have offered up their time and skills to analyze the Pfizer/BioNTech clinical trial documents. Team 3 is a subset of these volunteers dedicated to data investigation.

Some thoughts, lessons learned

Some thoughts, lessons learned

Media News (Propaganda)

Thomas Jefferson in 1807:

I will add, that the man who never looks into a newspaper is better informed than he who reads them; inasmuch as he who knows nothing is nearer to truth than he whose mind is filled with falsehoods & errors. He who reads nothing will still learn the great facts, and the details are all false.

Joseph Goebbels (NAZI propaganda minister)

If you tell a lie big enough and keep repeating it, people will eventually come to believe it.

Some thoughts, lessons learned

Academic Corruption

Voltaire (1694-1778)

“Doctors put drugs of which they know little into bodies of which they know less for diseases of which they know nothing at all.”

Markus Herz (1747-1803)

“Be careful about reading health books. Some fine day you'll die of a misprint.”
